

Tornado ADV / F2 / F3 RAF MARKINGS

For 1/32 scale designed

Some 1/32 modellers do conversions for a Tornado ADV F2 or F3 air defence variant. There were some 1/32 conversion aftermarket sets.

ADV F2 and F3 have some special service markings, walk ways and obviously squadron markings. Aftermarket decal sheets often had no white walk way lines or are out of print.

NOTE: walkway decals available on decals sheet **AIPD 01**.

DECALS SYSTEM

The decal sheet has one continuous print film, so each decal needs to be cut out with fine scissors.

No other prior decal preparation is needed.

Each cut out decal can be applied as usual after soaking it a short while in water. Decals are VERY THIN, so slide off from the wet backing sheet on a horizontally held GLOSSY model surface.

Note that a decal that contains a white section is often split in two parts. To apply the full decal marking, apply both and combine. On the decals sheet you will often see an "arrow" to indicate this way of application (on white surfaces, the white section is optional).

After all decals have been applied, finish the model with your preferred final gloss, matt or semi-matt varnish coats. This will also protect all the decals.

DECALS SHEET RAF MARKINGS

Contains the aircraft symbols and markings in 1/32 of Royal Air Force Tornado ADV F3 of squadrons:

no. 11 at Leeming with black tail and spine,
no. 25 at Leeming,
no. 41 squadron,
no. 43 at Leuchars,
no. 229 OCU including a special Tornado with red tail at Waddington 2004.

NOTE: by combining numbers and letters, other Tornado schemes may be possible.

NOTE: smaller stencilings are to be obtained/ used from the Tornado kit.

COLOURS RAF TORNADO ADV

ADV F2 with toned down markings:
upper & sides: Barley grey / BSC Flint grey BS4800-18-B-21
